DECK-OVER

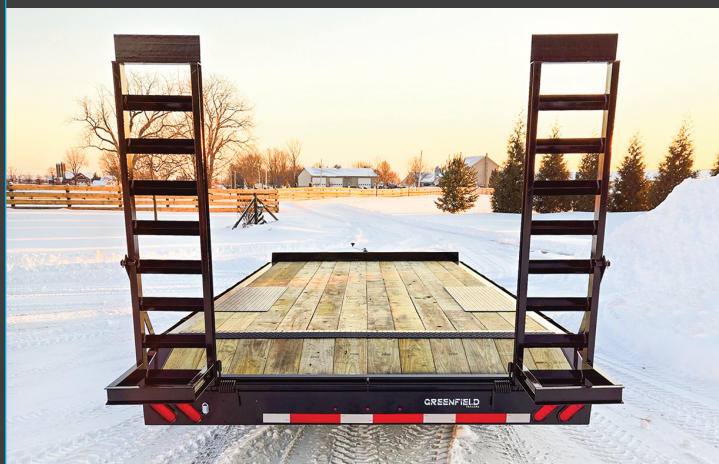

GREENFIELD

THE GREENFIELD DECK-OVER

The Greenfield Deck-Over trailer is designed to meet a variety of needs and can safely transport thousands of pounds of cargo. You can choose from several options for loading convenience: a spring-assist ramp, a stand-up ramp, lay-flat ramps, slide-in ramps, or a 2-foot or 4-foot dovetail. With two payload options and four trailer lengths, this professional-grade trailer is suitable for weekend projects and demanding daily tasks.

The trailer features wide pressure-treated decking, an adjustable channel coupler, a built-in toolbox, grommet-mounted LED lights, a sealed wire harness, and a plug storage mount, all engineered for years of reliable service. Optional features include a center tie-down, under-mount spare tire, and rubber torsion axles. All of this ensures you can purchase with confidence, knowing you have a secure and dependable trailer.
